

# Republican National Committee

Michael Steele, *Chairman*

---

Monday Morning

Dear Friend,

Your immediate action is required.

Please carefully read and complete the enclosed **2009 Obama Agenda Survey** which is **REGISTERED** in your name and affixed with a tracking code to ensure that it is accounted for in the tabulated results.

As Chairman of the Republican National Committee, I am sending out this questionnaire to gauge where you and other grassroots Republicans stand on the critical issues facing our nation – I need to hear back from you right away.

You know that the liberal media elites and the Obama Democrats are hoping you will put this letter down right now and do nothing...

...They want you to give up, desert your Party, and walk away from your conservative principles.

**I'm asking you to please not turn your back on us now.**

I want you to know that the Republican Party is not dead and we are not going away. Our ideals remain sound and our goals remain worthy.

We have a strong minority in the U.S. House and in the U.S. Senate. We intend to use both to actively oppose and expose the truth about the Obama Democrat agenda.

**We believe that you and every one of the more than 60 million voters all across our country who did not vote for Barack Obama deserve to have a voice in the way this country is governed.**

The enclosed **2009 Obama Agenda Survey** is your opportunity to let Republican leaders in Washington, D.C. and all across the country know where you stand on the policies and programs being proposed by Barack Obama and his Democrat allies in Congress.

As a REGISTERED participant in this important touchstone survey, your questionnaire answers will be used to represent a broad sampling of Republicans in your area. *So please, no matter what, do not discard or destroy your Survey.*

In order for our sampling of Republican opinion from your area to be as exact as

(Over, please)

Page Two

possible, you must return your survey – Even if you leave some of the questions blank.

There is so much about the Obama agenda that most Americans do not know about, thanks to the non-stop, swooning coverage of the ultra-biased media.

But with your help, we are going to expose the Obama agenda for all Americans to see so that we create a groundswell of opposition.

And we must act quickly because the Democrats are hoping to carry forward their momentum into the incredibly important 2009 governors' races in Virginia and New Jersey. It is up to you and me to stop them.

We need solid proof from the results of this survey to show that regardless of what the left-wing media is saying...

...There is not overwhelming support for many of the radical proposals being put forward by Obama and the Democrats.

**That's why we are asking where you stand on Barack Obama's promise to raise taxes...**

...On his plans to give amnesty to illegal immigrants, which could lead to billions of dollars of government handouts and possibly bankrupt Social Security...

...And how do you feel about Obama's efforts to nationalize health care and have it run by bureaucrats in Washington, D.C.?

These are Obama's top priorities!

He intends to immediately bring about "change" that will stifle our fragile economy, undermine our nation's sovereignty and create a massive new government bureaucracy.

We don't have a moment to waste.

Republican leaders in Congress and all across the country are scrambling to regroup and rebuild to make sure that folks like you have a voice in Washington, D.C. to look out for your interests and address your concerns.

**I know we aren't going to win every battle, but we must fight for our principles, values and beliefs on every issue.**

The RNC will make sure the Democrats OWN their record now that they are in total control of the federal government.

You and I know that Obama and the Democrats ran away from their own liberal agenda during the 2008 elections – Obscuring their plans for massive tax increases and the largest, most

(Next page, please)

expensive expansion of our federal government in history.

But they have nowhere to hide now.

Unfortunately, one thing Obama and the Democrats have is lots of money.

Last year Obama raised over \$650 million for his Presidential campaign and Congressional Democrats out-raised Republicans by 2-1.

Today Obama's team is still raising tens of millions of dollars a month which they will use during the 2010 mid-term elections to try to protect and expand their majorities in Congress and to elect more Democrats at the state and local levels.

In order to compete with the Democrats in your state and all across the country, our Party must immediately start building our campaign war chest, even now as we assess our future, focus our attention, and rebuild our infrastructure.

That's why I'm asking you to include a contribution to the Republican National Committee of \$500, \$250, \$100, \$50 or even \$30 along with your **2009 Obama Agenda Survey** in the postage-paid envelope provided.

The Republican National Committee will use your contribution to rally Republicans, independents and disaffected Democrats who do not support the radical left-wing Obama agenda to come together and speak with a single, loud, clear voice.

We cannot afford to wait...

...Or the Obama Democrats will dig in, using their massive fundraising network to mount an all-out propaganda campaign to obscure their actions in Washington and hide the fact that their agenda is dictated by, and benefits, the special interests that bankroll their election campaigns.

If you don't like the direction that Obama and the Democrats are taking our country, then the single most important action you can take is to come forward and support the Republican National Committee today.

Even though the media acts as though the outcome of the past election was a unanimous, 100% vote in favor of Barack Obama and his liberal agenda...

...Over 60 million Americans did not support Obama and the Democrats...

...Republicans are not going to give up or go away.

We are going to get back to basics, rebuild from the grassroots up, and come back with renewed energy and a strong commitment to the conservative principles of low taxes, small government, personal responsibility, and a strong national defense.

(Over, please)

I am asking you to play a very important role in our resurgent effort to move our Party forward. The Republican Party truly needs your support and your advice today.

By returning your completed **2009 Obama Agenda Survey** to the Republican National Committee along with your supporting contribution of \$500, \$250, \$100, \$50 or even \$30, you will help focus and rebuild our Party.

Of course, we realize that as we move forward, our Party cannot simply oppose the Obama agenda, we need to offer substantive alternatives based on our conservative principles and free market ideals.

That's why we are already working in your area and across the nation to recruit the next wave of Republican leaders to run for office and offer innovative new solutions to meet the real, pressing problems we are confronting in Washington, in state capitals, and in town halls.

We have been on the defensive as the Democrats in Congress put partisan politics in front of the best interests of the nation, attacked our leaders with personal smears, and saturated the media with propaganda.

In 2009 that all changes. The Democrats will have to offer the nation more than just pessimism and attacks on Republicans. And we have already heard their calls for the largest tax increases and the most massive expansion of government ever.

So please, help the Republican Party refocus and rebuild so that we are ready to expose the Obama Democrat agenda of special interest handouts and ultra-liberal big government policies.

Take just a few minutes to read and complete your REGISTERED copy of the **2009 Obama Agenda Survey**, then make out your check or provide your credit card information in the space provided for your contribution of \$500, \$250, \$100, \$50 or even \$30 to the Republican National Committee, place it in the postage-paid envelope provided, and mail it right way.

The future of the Republican Party is in your hands. Act now.

Sincerely,

Michael Steele  
Republican National Committee Chairman

P.S. All across the country, citizens like you who do not believe that more government and higher taxes are the cure-all for every problem facing us are coming together to rebuild our Party and move forward. To join this effort, please complete the enclosed **2009 Obama Agenda Survey** to let us know where you stand on the top 15 priorities of the Obama Democrats, and return your survey with a supporting contribution of \$500, \$250, \$100, \$50 or even \$30 to the Republican National Committee in the postage-paid envelope provided. Thank you.
