**Subject:** RE: NRC Confirmatory Action Letter and SCE News Release

Thanks, Les! It seems like the big question remains what was the root cause of the original leak in Unit 3. I would be interesting in hearing an update on what you've learned if our "regular" Wednesday 1:30 call is still convenient and useful. Mike

Commissioners,

Attached below is the NRC Confirmatory Action Letter and the associated NRC News Release. As you are aware, the confirmatory action letter describes a series of actions we must complete at SONGS before seeking permission from the NRC to restart Units 2 and 3. I've also attached SCE's press release. Please know that the NRC letter doesn't contain any major surprises as to what we need to do to safely return SONGS to operation.

The press release:

Les Starck

Commissioner, Ron will be calling you today at 1:30 p.m. and go over the status of the root cause analysis for Unit 3. I hope that still works for you!
